Five candidates with very different tastes in decoration all completely makeover a room in their home.

One candidate per episode, five episodes per week. Each Friday there is a winner of the week.

All five candidates each have 48 (or 24) hours to makeover the same room with a budget of 1.000 Euros. One time it is the bed room, one time the living room, another time the kitchen or the bathroom.

The five candidates meet at the beginning of each show in the home of the candidate whose turn it is that day.

Each week sees a different theme, which the candidates are told each Monday before the first makeover: i.e. "space bathroom", „summer in the bed room" or "wildlife in the living room". In addition all participants get a basic craftsman-box so that everyone has the same chances and the budget is not spent on tools such as a hammer or a wall paint roller.

Our design expert Attila Deveci accompanies and comments the happening in front of a blue box.

After welcoming the candidates in the first home the candidate of the day is taken shopping in our decoration truck. The candidate only has 4 hours to buy everything he needs for his makeover: furniture, paints, accessories.

As soon as the candidate is back from shopping his 48 (or 24) hours for the makeover start. He paints, saws and screws as much as he can in order to finish in time. Time is short!

When time is up the candidate must present his new room. Did he finish in time? Or does the wallpaper still hang half way off the wall?

The four competitors now evaluate the candidate's work with points from 1-10. 1 point means they do not like it at all, 10 points means they like it very much. Attila comments on the result but does not give his points until the last day. The next day we move on to the next candidate, and so on.

On Friday in the last home Attila evaluates all candidates.

Finally the winner of the week is treated there with 2.500 Euros price money!
