LOVE AND PRIDE

Murat has been in love with her since they were little, he loved her all this life but she doesn't really have the same feelings for him. Kenan on the other hand is the young heir of an established and rich family from Istanbul and there is an undeniable attraction between them although they just met each other. Zeynep starts to re-evaluate love. She is torn between Kenan and Murat while the hostility between the two men is rising.

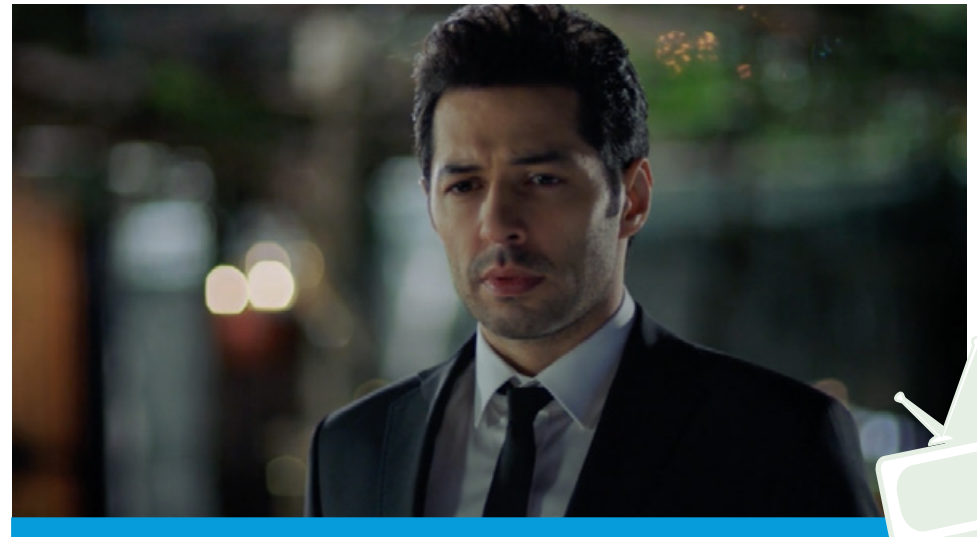

Zeynep meets Kenan during the wedding of her childhood friend Taylan. Even though the two are poles apart in personality, they're extremely attracted to each other. Zeynep's best friend Murat, who's been in love with her since they were little, proposes to her at the same wedding. Shortly after the wedding Zeynep quits her job and by coincidence, the new job she finds through Taylan is in Kenan's company.

In the meantime, Zeynep's dad Ahmet who secretly had invested the rest of all his savings in a new venture finds out that his investments had failed and he buried

the family in debt. Being in a desperate situation, Ahmet sells their family house to Kenan as a final resort. This increases the tension between Zeynep and Kenan, who is now her boss.

Murat's mother Gülnaz and Kenan's paternal aunt Şevval had met each other many years ago and the house Zeynep is living in with her family is the very same house Kenan used to live in as a child. Zeynep finds a diary belonging to the former residents in the basement. This diary will be the key to a big secret.

Zeynep's sister Türkan, the oldest child of the family, has fallen for the soccer player Kadir, who's younger than her. But since she believes a relationship is impossible, she doesn't reveal her feelings. Zeynep's younger sister Elif, on the other hand, is platonically in love with a teacher at the university. The family's younger children Şükran and Ali are in high school and become friends with İpek, who just enrolled in the same school. This friendship will be the beginning of new adventures for the two siblings.
