Genre:
Quiz Show

Duration:
Weekly, Prime Time

THE SPHERE

THE
Sphere

At the beginning of the game, each contestant will be assigned a different color and there will be a transparent sphere in front of them containing 10 balls in matching colors with the contestants' color. Each ball is worth 10.000 USD. In other words, each contestant starts the game with 100.000 USD. Their goal is to answer as many questions as possible with the correct answer and have the maximum amount of balls in their sphere of luck.

The 1st round consists of 10 multiple choice questions, the contestant will choose the right answer among two options and lock as many balls as he feels confident with to be sent to the Sphere of Luck. The more the contestant is sure about his/her answer, the more balls he/she can decide to send to the Sphere of Luck.

The Sphere of Luck starts spinning once the balls are locked in and at the end of the cycle, 1 ball drops down.

The questions get gradually tougher. After the 10th question, the contestant with the highest number of balls in his sphere makes it to the final. At the final round, the finalist contestant will be asked to answer a multiple-choice question with 4 possible answers. If the contestant gives the correct answer, he/she will win the bonus which doubles the amount of balls, thus doubling the amount of cash prize! But there is still a better outcome that is possible: if the contestant makes it to the final with all the other contestants' balls in the "safe" the correct answer will bring the biggest prize of 1.000.000 USD.

For the less fortunate contestants who are not so sure about the correct answer, it is not the end of the game as there is always a prize to be earned: they may eliminate the wrong answers at the expense of losing half of their possible cash prize per each time a choice is eliminated.
